Knitty Things

By Linda Permann

Here, our favorite supplies for fellow fiber fanatics.

Mug Shot

Enjoy your morning brew with this adorable sheep-faced mug from Herdy. Knit stitches surround the fine bone china and loveable sheep greet you both inside and out. The sheep icon comes in several different colors—pick one for each member of your knitting flock. About \$17 | www.herdy.co.uk

Tangle Dangle

Add a touch of sparkle to knit nights with these shiny, happy earrings featuring every knitter's two favorite stitches. Each is made from a recycled metal disc that is hand-stamped by artist Mavis Farr-Smentkowski, meaning no two are exactly alike. \$22 | www.sparklegarden.etsy.com

Washable Woolies

We're in a lather over the newest yarn in Debbie Stoller's Stitch Nation line. A superwash worsted-weight wool, Washable Ewe comes in 14 colors with fun names like Green Apple, Strawberry, and Currant (shown). It's a perfect fit for clothing (like the Boy's Sheriff Sweater on page 36), accessories, and blanket projects. \$5 | www.redheart.com

It's in the Bag

Originally designed by a carpenter, the Nantucket Diddy Bag is one of the most versatile, durable knitting bags available. The bag contains thirty pockets, which you can arrange with the flick of the zipper on the outside or inside of the bag—allowing you to either reveal or protect your needles. For a third option, unzip the bag so it lays flat, displaying your tools so that you can easily find what you're looking for. Whether you keep this bag at home or take it with you to knit night, it's sure to hold everything you need for your works in progress. \$50 | www.nantucketbagg.com

Lighten Up

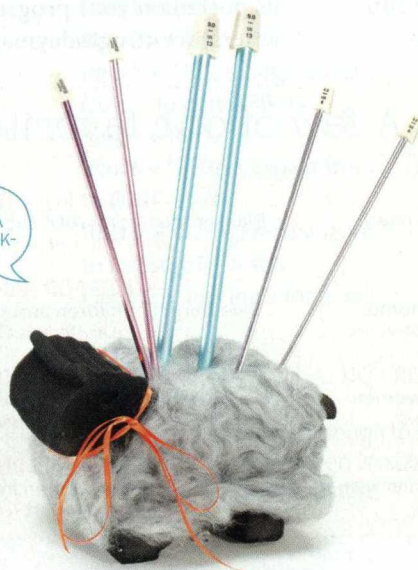

Illuminate your knitting on airplanes, in the car, or any dimly lit space with a Mini Hug Light. This hands-free light is worn like a stethoscope, with bright LEDs on each end. It's lightweight, comfortable to wear, and easy to switch on and off as needed, with the option to use one or both lights at a time. It's perfect for hard-to-see yarns and those late-night knitting marathons! \$13 | www.mylight.com

Pet Project

Like a pincushion for your straight and double-pointed needles, Kneedle Pets are the perfect couch-side companion to any knitting corner. Choose a fish- or sheep-shaped pet made with foam core to easily hold your needles. Choose a complete pet that sports a knitted cover—or buy the kit to knit your own. They're the perfect way to keep your needles from rolling out of sight. \$19–\$22; kit \$12 | www.kneedlepet.com

The Knitter's Guide to Seattle

Bring along your knitting needles to the home of the Space Needle, as we take you through three Pacific Northwest neighborhoods for traveling stitchers.

By Jen Harper

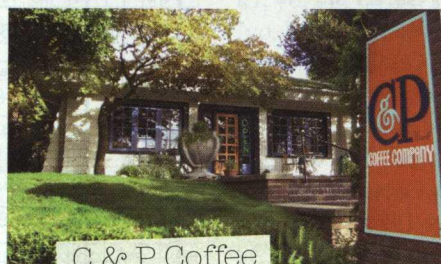

Whether sipping an Americano at one of Seattle's myriad coffee shops, riding the ferry, or walking through the Olympic Sculpture Park on an elusive sunny day, you're sure to see busy fingers working yarn and needles. Seattle's strong craft community caters to knitters, with great local yarn shops spread across distinct neighborhoods. Planning a visit? Set up home base in one of Seattle's convenient downtown boutique hotels, and take three days to explore the city's best yarn spots as well as other must-sees in West Seattle, Bainbridge Island, and Madison Park.

DAY ONE: WEST SEATTLE

Head a few miles southwest of touristy downtown to hilly West Seattle. Pop into **C & P Coffee Company's** cozy craftsman-style house (5612 California Ave. SW, 206-933-3125) for a latte to keep your energy up exploring the spacious **Seattle Yarn** (5633 California Ave. SW, 206-935-2010), a great place for stocking up on basics as well as some more exotic blends, needles, patterns, and buttons. Then take a short ride to **Little Knits** (3221 California Ave. SW, 206-935-4072) and check your shopping restraint at the door.

Friendly knitters gather to gab and stitch at Seattle Yarn.

C & P Coffee

With the extensive selection of textures, colors, and fibers, often deeply discounted, plus the super-helpful staff, you'll surely leave with enough loot (and project ideas) to fill another suitcase. With its vast online store, you can keep shopping after your visit. Walk down the block to **The Swinery** (3207 California Ave. SW, 206-932-4211), a sustainable butcher shop and deli offering meat sourced within 300

miles. Take your BLT, grass-fed burger, or chocolate-covered bacon to **Alki Beach Park** (1702 Alki Ave. SW, 206-684-4075) to finish your West Seattle excursion by soaking up sun, salty air, vistas of the Olympic and Cascade mountains, and the Space Needle.

DAY TWO: BAINBRIDGE ISLAND

Hop on a 35-minute scenic ferry ride from downtown Seattle to the

Tricoter

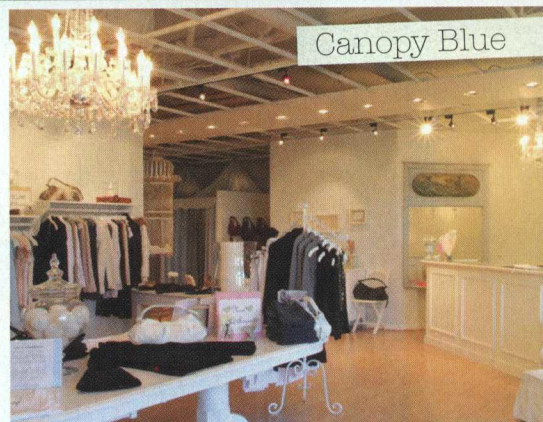

Enjoy seasonal Pacific Northwest cuisine at The Four Swallows.

charming and artistic community of Bainbridge Island. Make **Blackbird Bakery** (210 Winslow Way E., 206-780-1322) your first stop for a fresh pastry to snack on while exploring the cute, eclectic shops nearby. Don't miss **Eagle Harbor Book Co.** (157 Winslow Way E., 206-842-5332) with its selection of new and used books, including those by local authors; **Eleven Winery's** tasting room (287 Winslow Way E., 206-780-0905), showcasing wines from the small island winery; **Bon Bon Confections** (123 Bjune Dr., Suite 103, 206-780-0199) for rich fudge made fresh daily; and **Churchmouse Yarns & Teas** (118 Madrone Lane N., 206-780-2686). This warm and cozy shop for yarn crafters and tea-lovers alike has a variety of knitted samples to inspire you. The store boasts an array of patterns and yarns, as well as a bevy of traditional wools and more unique yarns you're unlikely to see elsewhere in the city. You can also sniff your way through the selection of teas—or be led by the knowledgeable staff—to complete the English-country-themed experience. Staying for dinner? Make reservations at **The Four Swallows** (481 Madison Ave., 206-842-3397), a 19th-century farmhouse serving seasonal, Italian-inspired Pacific Northwest cuisine like oysters with tomato, vodka, and horseradish granita, or beef tenderloin with rainbow chard—and be sure to save room for the butterscotch budino dessert.

DAY THREE: MADISON PARK

Finish your Seattle stay in the city's upscale Madison Park neighborhood. Hike through the **Washington Park Arboretum** (2300 Arboretum Drive E., 206-543-8800), 230 acres of urban oasis, and the **Japanese Garden** (1075 Lake Washington Blvd E., 206-684-4725), a peaceful 3.5-acre formal garden within the arboretum. Continue down Lake Washington Boulevard East to **Arosa Cafe** (3121 E. Madison St., Suite 101, 206-324-4542) for a sweet handheld waffle or delicious panini before popping into **Tricoter** (3121 E. Madison St., Suite 104, 206-328-6505), a quaint shop stocked with a kaleidoscope of luxurious yarns beautifully arranged by color. Don't be intimidated by the tables full of knitters in the center of the shop—just pull up a chair and join them. Swing into nearby **Oh! Chocolate** (3131 E. Madison St., Suite 100, 206-329-8777) for handmade truffles or buttery caramels. Finish at **Canopy Blue** (3121 E. Madison St., Ste. 103, 206-323-1115), where cabana-style dressing rooms and crystal chandeliers transport you from Seattle to St. Barts. **K**

✦ REGINA
CYPRESS, TX

A It's funny you should ask, Regina, because I've been getting a lot of questions about buttons and buttonholes lately (stay tuned and I'll answer some of those in a future column)! This is one area where creativity and knitterly experimentation will serve you well.

Almost any cardigan can be easily adapted to use snaps; in fact, you might not even have to change the pattern itself if the garment's edges overlap with sufficient ease. But why stop there? You can knit a simple frog-style decorative closure (by "frog," I mean a closure woven from cord—think Celtic knot—not an amphibian or knitter slang for ripping out mistakes) using I-cord to disguise your snaps. Don't be tempted to use hook-and-eye closures, though, that's just asking for snaps.

Also beautiful in I-cord: simple ties. Knit a plain cardi-

gan and pick up four stitches at each of the top neckline openings, then knit I-cord until the pieces are long enough to tie in a bow. This would look great on a capelet or shawllette, too. (By the way, for a how-to on I-cord, visit knittingtodaymag.com).

Some knitters use I-cord loops to catch a large toggle-type button on a bulky knitted jacket. I like horn toggles (or horn look-alikes) for an Alpine feel. Want to be a little more sleek? Zippers are easier to do than you might think. My advice? Leave the sewing machine alone and stitch them in by hand after copious amounts of pinning. You can ease the zipper into place much more effectively and prevent zipper buckling.

To make I-cord, using double-pointed needles, cast on a few stitches and knit every row, sliding the stitches to the other end of the needle at the end of each row.

Q I am completely puzzled by short rows: what they really are, how they're used, how to use them in a pattern where they're optional...help!

✦ LORI
PHILADELPHIA, PA

A Lori, short rows are just that: shortened rows inserted into your overall piece of knitting to add length (or more accurately, volume) to certain sections of the fabric. By knitting only part of the row or round and turning back around to knit/purl in the other direction (repeating as needed), you can build in additional space to accommodate a larger bustline, or any other lump or bump requiring special attention. Most of the time in patterns, we see short rows in the bust area, so much so that some knitters automatically assume "bust shaping" when they read "short rows."

You may also see references to "wrap and turn," or "w&t" in instructions. The basic mechanics for creating w&t short rows involve knitting to a certain point,

moving the yarn to the front, sliding a stitch from the left- to the right-hand needle, moving the yarn to the back, then placing the stitch back on the left needle. Turn the work, knit back to the beginning of the round or row, and repeat as needed.

Instead of moving the yarn from back to front and wrapping it around a placeholder stitch, some knitters prefer to use a yarn over. The yarn over technique is slightly easier but leaves a more noticeable gap, which you will need to close by working that stitch together with its neighbor when you get back to that part of the row or round.

The length of the short row can vary based on the size of the pattern and the area being accommodated. If you're knitting short rows for the bust area, you don't want to go all the way to the center of the breast with the pointed end of the w&t, because it creates the visual equivalent of a Look Here sign!

Some patterns instruct you to pick up the wraps and knit them together with their neighboring stitch to disguise them. This is generally a matter of preference. The yarn often dictates whether or not this

Wrap & Turn

Wraps help avoid holes at the turning point.

1 Move the yarn to the front, slip the next stitch, move the yarn back, replace the slipped stitch, and turn.

THESE STITCHES HAVE ALREADY BEEN WRAPPED.

2 Later, knit the wrap at the stitch's base together with the stitch on the needle, to hide the wrap.

Yarn Over

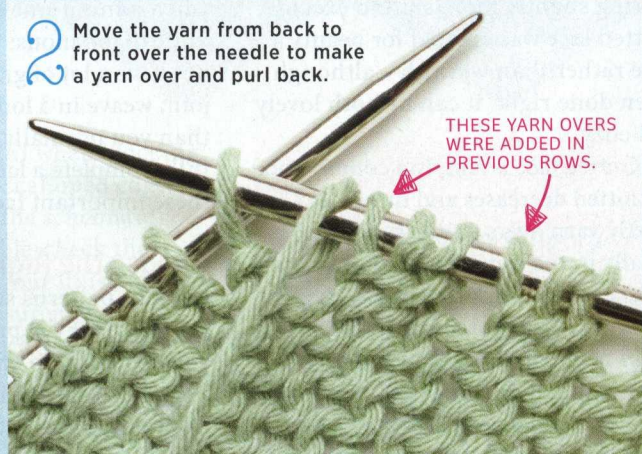

This technique leaves more noticeable gaps between stitches.

1 Knit to the last stitch and slip it to the right needle without working it. Turn your work.

2 Move the yarn from back to front over the needle to make a yarn over and purl back.

THESE YARN OVERS WERE ADDED IN PREVIOUS ROWS.

is necessary: The wraps won't be as obvious in a multicolor or textured yarn, for example.

Sock knitters will recognize exactly what's going on here—short rows are often used to shape the heel of a sock (What is the heel area of your foot if not a big bump?).

Short rows are an invaluable trick for shaping your knits to fit better so you'll look better. Try them out and you'll soon find plenty of other places to use them.

Q

I always cast on and knit too tightly in my first row, and it completely messes up the edge of my work. What can I do to address this?

—KATE
PLACERVILLE, CA

A

Relax, Kate! No, really. Relax. Often, our tension is tighter when we're nervous—I can tell

you that a project I was knitting while waiting in the hospital during a family member's surgery was definitely tighter in the area I knit at that time. If you're

a real yogini and you know that's not the problem, try this: Cast on with a larger needle and then switch down to the other size after you get going.

Embrace Lace

Add beautiful openwork to your projects with this diverse and decorative stitch.

By Jill Draper

Knitted lace is a relatively new addition to the spectrum of knitting styles, as knitting itself was developed from a utilitarian need to keep warm. Mainly decorative and requiring slightly more skill to execute, knitted lace was created for beauty's sake rather than warmth—although when done right, it can be both lovely and cozy.

Knitted lace is simply a combination of knitted decreases and increases, mostly yarn overs paired together, usually in the same row to give an open look. You can work lace in any shape: squares, triangles, rectangles, or circles. It can be intensely designed, with long repeats and huge row counts, or simply, with just a single row repeated. Many lace patterns are figurative, hinting at blooming flowers, undulating waves, or spreading leaves; for those who want

At first glance, knitted lace can seem scary to complete and possibly complicated, but it's not.

something more architectural, you'll find a wide variety of gorgeous geometric patterns. Many stitch guides are filled with lace patterns, including *The Harmony Guides* (Anova Books), Barbara Walker's *A Treasury of Knitting Patterns* series (Schoolhouse Press), and Vogue Knitting's *Stitchionary* (Sixth&Spring Books).

At first glance, knitted lace can seem scary to complete and possibly complicated, but it's not. Carefully following your pattern is essential in lace knitting, as is leaving a longer tail when joining a new ball. Lace can be quite diaphanous; the knitting might not have a lot of grip, so for a solid join, weave in a longer length of yarn than you normally would. To successfully complete a lace project, consider these important factors.

Choose the Right Yarn

Usually, patterns suggest a yarn appropriate for the project, but what if you decide to go off the map and knit a scarf or shawl using a lace pattern from one of the stitch guides? When knitting lace, the yarn's thickness and the fiber's properties play a big part in how the final garment hangs, feels, and looks. There are no hard and fast rules to picking fiber for a lace project, but knowing what each fiber does and making an informed buying decision helps ensure your lace project is a success. See www.knittingtodaymag.com for a fiber primer.

Decide on Needles

When choosing needles for your lace project, the choice is purely a matter of personal preference. Some knitters like the slipperiness of metal or coated metal needles, while others prefer the stickiness of wood or bamboo. One of the keys to enjoying your lace knitting is a nice pointy tip, which makes

it easier to tuck the needle tip into yarn overs or several stitches at once in a multiple stitch decrease. With lace garments or accessories, needle size affects the look of the finished piece, rather than the actual size. Knitted lace is usually incredibly elastic by nature and can be blocked larger or smaller, depending on the desired size.

Before You Cast On

Before you begin a lace project, practice the techniques you'll need to complete the pattern. Look at the chart or written instructions for your project—the included photo shows a finished pink knit piece, as well as its pattern written out and charted. Lace can be made with a stockinette ground (where all wrong-side rows are purled), a garter ground (where all wrong-side rows are knit), or as a pattern that has both yarn overs and decreases on both sides of the fabric.

Start With a Swatch

Begin with the needle size recommended for the pattern and cast on at least one repeat of the pattern. Most patterns give the repeat; for smaller repeats, cast on enough stitches to make a four-inch swatch. Work the pattern as given, remembering if the project will eventually be knitted in the round; you'll need to adjust the wrong-side rows for straight knitting. Work the pattern

Diagram illustrating a 12-stitch repeat pattern for a cable knit. The pattern is shown as a grid of stitches (represented by X, O, and Δ symbols) over 12 stitches. The grid is divided into two main sections by a vertical dashed line labeled "End" and "Begin". The first section (left) shows the initial setup, and the second section (right) shows the repeating pattern. The pattern is defined by the following sequence of stitches (X = knit, O = purl, Δ = cable cross):

The diagram shows a repeating pattern of 12 stitches, with the first 12 stitches forming the initial setup and the subsequent stitches forming the repeating pattern. The pattern is defined by the sequence of stitches (X = knit, O = purl, Δ = cable cross) shown in the grid.

Blocking Lace

+ **SOAK** Fill a clean sink with tepid water and swish the piece around. You could add a wool wash like Soak, Woolite, or Eucalan. My personal preference is plain water.

✦ **BLOCK** Special blocking boards are available, but for those with limited craft space, a carpeted floor works just fine. Lay down a towel on your chosen surface. You can use any sort of pins or specially designed blocking wires. The blocking wires

Once your finished project is dry, remove the pins or wires and wear your lacy new knit proudly. Knitted lace can be slightly more delicate than other knits, but the care is basically the same: gentle treatment, hand washing, and laying flat to dry. And when you wash it, you'll need to re-block it exactly as before. 

Try these tools to simplify your lace knitting.

- ✦ **Stitch markers.** Whether plastic, rubber, or metal, these help you keep track of where you are in the pattern. I often put a marker between each repeat to make sure I'm still on track and have the proper number of stitches for each repeat, without having to count the whole row.
- ✦ **Row counters.** Keep this clickable device on the table or hang it on your needle to mark which row you're on.
- ✦ **Magnetic boards or row highlighters.** These are available in many styles, but all have a stand-up board for attaching a copy of your pattern and a plastic guide that can be moved as you work each row.

Intarsia Basics All you need to know to get started with intarsia colorwork.

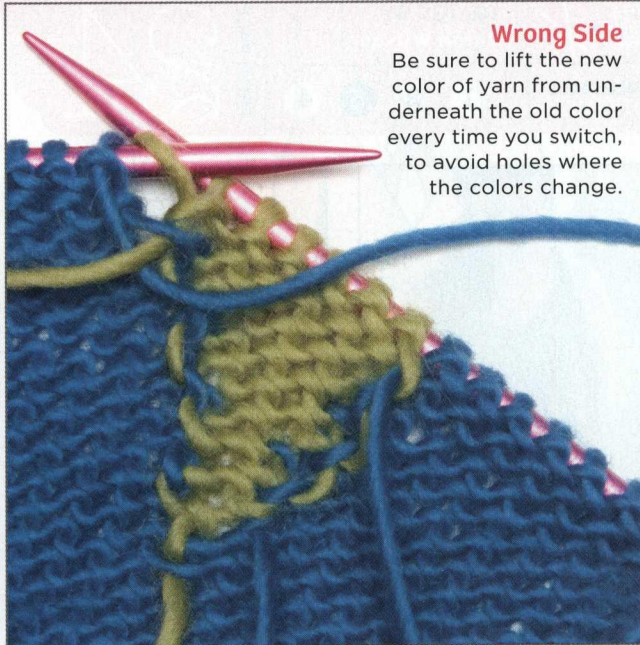

Right Side

Use separate strands of yarn for each area of color, to keep the tension even across the work and prevent puckering.

Wrong Side

Be sure to lift the new color of yarn from underneath the old color every time you switch, to avoid holes where the colors change.

NOTES

Top is worked in the round from the bottom up, beginning with a Provisional Cast-On (optional). Right and Left Sides of Bodice are worked back and forth in rows; Front Straps are continued from Bodice and worked to the same length, then grafted together. Back Strap is worked from one side of Back, threaded through grafted Front Strap to form a reef knot, then grafted to opposite side of Back. Constructed in

this unusual way, the Top is entirely seamless!

A Provisional Cast-On is used so that stitches on the needle may be worked together with live stitches from the Cast-On to create a hem. If you do not want to use a Provisional Cast-On, use your preferred method instead and when instructed, work one stitch from the needle together with one stitch from your cast-on row.

SPECIAL TECHNIQUES

Provisional Cast-On (optional) With waste yarn, make a slip knot and place on crochet hook. With crochet hook in right hand and needle in left hand, bring ball end of waste yarn behind needle. *With crochet hook, cross in front of needle, catch yarn, draw up a loop, and pull it through loop on crochet hook (1 stitch is cast on to needle); take yarn between hook and needle and around to back of needle again. Repeat from * until required number of stitches have been cast on. Work a few chain stitches with crochet hook, then fasten off. These chain stitches will indicate the end of the Provisional Cast-On that you will unravel. To remove the cast-on, unpick the last stitch and unravel the waste yarn, slipping live stitches onto the needle as they become available.

I-Cord Bind-Off With RS facing, cast on 2 sts onto LH needle; *k2, k2tog (1 st bound off), slip these 3 sts back to LH needle; repeat

from * for total number of sts to be bound off.

Grafting Place sts to be grafted onto 2 needles with wrong sides together and with needle points facing to the right. Using yarn needle, insert into first st on front needle as if to purl, leaving st on needle. Insert into first st on back needle as if to knit, leaving st on needle. *Insert into first st on front needle as if to knit, slipping st off needle, then into next st on front needle as if to purl, leaving st on needle. Insert into first st on back needle as if to purl, slipping st off needle, then into next st on back needle as if to knit, leaving st on needle. Repeat from * until all sts have been grafted.

BODY

Using Provisional Cast-On (or your preferred cast-on), cast on 195 (215, 235, 255, 275) sts. Join to work in rounds, taking care not to twist sts. Place marker for beginning of round. Begin St st; work for 9 rounds.

Turning Round ✧ Yo, *ssk, k1, k2tog, [yo] twice; repeat from * to last 5 sts, ssk, k1, k2tog, yo.

Next Round ✧ K1, *k3, knit into front and back of double yo; repeat from * to last 4 sts, k4. Knit 8 rounds.

Join Hem ✧ Carefully unravel Provisional Cast-On and place live sts onto second circ needle. Fold hem to WS along Turning Round. *K2tog (1 st from each needle); repeat from * to end.

Note If you did not work Provisional Cast-On, work 1 st from needle together with 1 st

picked up from cast-on edge.
Knit 6 rounds.

Shape Body

Place marker after st 98 (108, 118, 128, 138).

Decrease Round + [K2tog, knit to 2 sts before marker, ssk, slip marker] twice—191 (211, 231, 251, 271) sts remain.

Repeat Decrease Round every 7th round 14 times—135 (155, 175, 195, 215) sts remain.

Knit 1 round. Knit to 8 sts after first marker, removing marker.

Shape Bodice

Note Bodice is worked back and forth in rows. Remove remaining marker when you come to it.

Set-up Row + (RS) *Bind off next 6 (10, 13, 16, 19) sts using I-Cord Bind-Off, slip 3 sts back to LH needle and k3tog, k1, pass second st on RH needle over last st to bind it off*; k13 (not including st on RH needle) and transfer these 14 sts to a st holder for Back Strap; bind off 8 (10, 14, 18, 22) sts using I-Cord Bind-Off, slip 3 sts back to LH needle and k3tog, k1, pass second st on RH needle over last st to bind it off; k13 (not including st on RH needle) and transfer these 14 sts to a st holder for Back Strap; repeat from * to * once—84 (94, 104, 114, 124) sts remain. Place marker between 2 center sts.

Note Slip sts purlwise with yarn on WS.

Row 1 + Slip 2, knit to 4 sts before center marker, k2tog, k2, join a second ball of yarn, slip 2, ssk, knit to end—41 (46, 51, 56, 61) sts remain each side.

Row 2 + *Slip 2, purl to end for Right Side of Bodice; repeat from * for Left Side of Bodice.

Row 3 + *Slip 2, ssk, knit to last 4 sts, k2tog, k2, for Left Side of Bodice; repeat from * for Right Side of Bodice—39 (44, 49, 54, 59) sts remain each side.

Row 4 + Repeat Row 2.

Row 5 + Slip 2, knit to last 4 sts, k2tog, k2 for Left Side of Bodice; slip 2, ssk, knit to end for Right Side of Bodice—38 (43, 48, 53, 58) sts remain each side.

Row 6 + Repeat Row 2.

Repeat Rows 3–6, 8 (9, 10, 13, 14) times, then Rows 3 and 4, 0 (1, 2, 0, 1) time(s)—14 sts remain each side. Continue in St st, slipping first st of every row, until Straps measure 10 (9, 8, 7, 6)/25.5 (23, 20.5, 18, 15)cm from last decrease, end with a WS row. Cut yarn, leaving a 12" tail. Graft Straps together, being careful not to twist Straps.

FINISHING

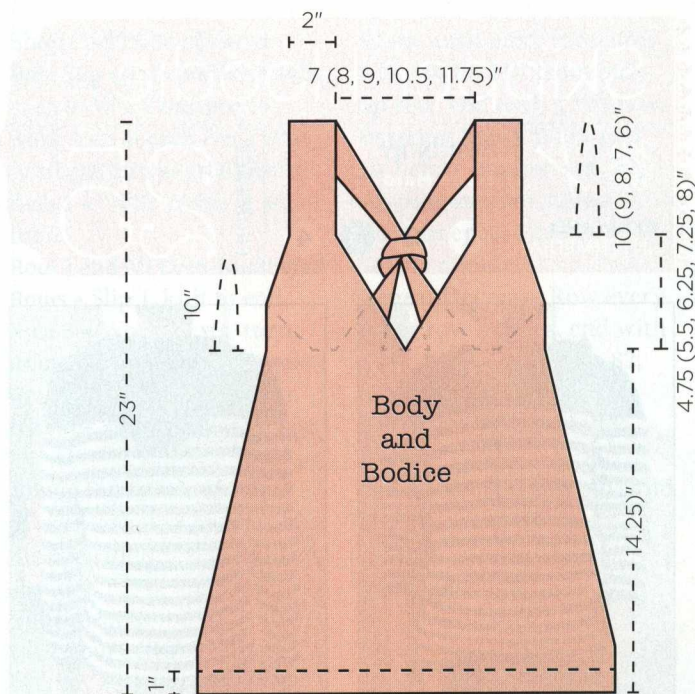

Back Straps

Slip sts on Back st holder to needle. With RS facing, join yarn and work in St st, slipping first st of every row, for 10"/25cm, or to desired length.

Note Every inch you add to the length of the Back Strap will add approx .25"/.5cm to the total length.

Cut yarn and slip sts onto a st holder. Thread Back Strap through Front Strap to create a reef knot (see diagram). Slip sts from both st holders onto separate needles. Graft sts, being careful not to twist Strap.

Weave in ends. 

knit note!

"I searched the Internet for different types of sailor knots and settled on the classic reef knot, but the possibilities are endless! If you're going to switch up the knot, make a practice knot with a scrap of 2"-wide fabric, so you know roughly how many inches tying the knot will take and can adjust the length of straps as needed." — **Sarah Wilson, DESIGNER**

SPECIAL TECHNIQUES

Make Buttonhole Slip next stitch with yarn in front, bring yarn to back and leave it there. *Slip next stitch and pass first stitch over it; repeat from * 3 times, leaving yarn to back. Duplicate Stitch With yarn needle and specified yarn, and leaving 6"/15cm tail, *pull needle up from WS to RS, at bottom of V of first stitch to be traced, then across top of stitch, under both arms of stitch above the stitch you're tracing, insert needle back through same hole where you first pulled it through, completing the duplicate stitch. Be sure to keep the duplicate stitch the same tension as the stitch you traced. Repeat from * until design is completed.

GAUGE

17 sts and 26 rows = 4"/10cm in Lace Pattern

NOTES

Pullover is worked back

and forth in rows. Circular needle is used to accommodate the large number of stitches. Pullover is worked in two pieces. Front and Back are each worked separately to the Sleeves, then stitches for the Sleeves are cast on and worked to the shoulders, where the pieces are worked together using 3-Needle Joining.

When working Lace Pattern, each repeat on the RS has a yo (1 stitch increased per repeat); the corresponding decrease on the WS is a p2tog. In addition, on the WS, there is a second p2tog that is offset by [k1, p1] into yo. When shaping Back Neck, to keep stitch pattern correct, be sure not to work a yo on the RS without the corresponding p2tog on the WS, or [k1, p1] into yo on the WS without its corresponding p2tog. If you are not comfortable working the shaping and the stitch pattern at the same time, you may work the remaining stitches in St st when you cannot work a complete repeat at Neck edge. A third knitting needle will be required to work 3-Needle Joining. Slip all stitches purlwise.

SPECIAL TECHNIQUES

3-Needle Join Slip stitches from Front Sleeve/Shoulder onto one needle and stitches from matching Back Sleeve/Shoulder onto separate needle, with needles parallel and needle tips pointing in the same direction. With RS together, holding needles in left hand, insert third needle

into first stitch on front needle, then first stitch on back needle, and knit these 2 stitches together. *Knit next stitch on each needle together in the same manner; slip the first stitch on the RH needle over the last stitch to bind off one stitch. Repeat from * until one stitch remains on the RH needle. Fasten off. Repeat for second Sleeve/Shoulder.

Repeat Decrease Row every other row 17 times—29 (33, 37, 41, 45, 49, 53) sts remain each side.

GAUGE

11 sts and 20 rows = 4"/10cm in Stockinette st using larger needle
Exact gauge is not essential for this project.

NOTES

Playmat is worked back and forth in rows. A circular needle is used to accommodate large number of stitches. Smaller decorative elements are added after Playmat is finished by embroidery or surface crochet.

Use the intarsia method of knitting, using a separate ball of yarn for each large block of color. Pick up new yarn from under old to twist yarns and prevent holes. Carry colors not in use along wrong side of work.

Animals are worked in rounds on double-pointed needles. Leave long tails at beginning and end of each piece to use for sewing together.

SPECIAL TECHNIQUES

I-Cord

Using double-pointed needle, cast on required number of stitches. Knit 1 row. *Slip stitches to opposite end of needle without turning and, holding yarn in back, knit to end; repeat from * until I-Cord measures desired length. Bind off all stitches.

Surface Crochet

Working with right side of piece facing, make a slip knot on crochet hook, *slip crochet hook through mat from right side to wrong side and back to right side of piece, yarn over, pull yarn through mat and loop on hook; repeat from * evenly spaced to make a chain along surface of work.

W&T (Wrap and turn)

Bring yarn to front, slip next st, turn, wrap yarn around slip st and slip same st back onto right-hand needle. On next row, work wrapped

st by picking up wrap and working together with st on left-hand needle.

SPECIAL ABBREVIATIONS

CDD (Central Double Decrease) (2-st dec) Slip 2 sts together knitwise, knit 1 st, pass both slipped sts over together.

K1-f/b/f Knit into the front, then the back, then the front of the same st.

P5tog Purl 5 sts together.

P7tog Purl 7 sts together.

PLAYMAT

With circular needle and A, cast on 116 sts. Beginning with a right side (RS) row, work in St st for 6 rows.

Pond

Row 1 + (RS) K4, place marker, beginning with Row 1, work 58 sts in Pond Chart, place marker, k54. Working in St st, work 49 rows of Pond Chart in marked section. When chart is completed, remove markers and work with A only for 3 more rows.

Barn

Row 59 + (RS) K73, bind off 19 sts for Barn Door, k24.

Row 60 + P5 with A, place marker, beginning with Row 60 of Lower Left Barn Chart, work 19 sts, with D, cast on 19 sts and work remaining 19 sts of chart for Left Side of Barn, join second ball of D and p5, join second ball of A and p68 for Right Side of Barn—43 sts for Left Side; 73 sts for Right Side.

Rows 61–85 + Work both sides of Barn at same time with separate balls of yarn, keeping sts as established on Right Side and working

Lower Left Barn Chart on Left Side, end with Row 85.

Row 86 + (WS) P5 with A, p19 with D, bind off 19 sts, continue to work across Right Side to join, p5 with D, p68 with A.

Row 87 + K67 with A, place marker, beginning with Row 87, work Upper Barn Chart for 6 sts, cast on 19 sts and continue to work Barn Chart across 39 sts, place marker, p4 with A.

Rows 88–111 + Work across all sts, working 45 sts of Upper Barn Chart between markers until Row 111 has been worked.

Continue to work with A only until piece measures 30"/76cm from beginning, end with a wrong side row. Bind off.

FINISHING

With right side facing and B, work Fence and Fence Posts in right-hand corner above Pond in surface crochet or chain stitch embroidery. In same manner, add Barn Door details. Weave in ends.

BACKING

Place Playmat on work surface with cast-on edge as lower edge. Measure width and length of Playmat. Add 3"/7.5cm to each measurement for Backing dimensions. Cut a piece of fabric to Backing dimensions. Cut a second piece of fabric, 26"/66cm wide by Backing length for Pocket.

Pocket

With right sides together, fold Pocket piece in half lengthwise so piece measures 13"/33cm wide by Backing length and press.

Position Pocket piece, centered behind Barn Door, on wrong side of Playmat, with folded edge at Left Side and 1.5"/4cm extending beyond top and bottom edges of Playmat.

Open Barn Door on Playmat and with dressmaker's pencil, mark open 3 sides of Barn Door on wrong side of Pocket fabric, leaving left-side hinge unmarked. Cut fabric along marked lines to make a Flap with same dimensions of Barn Door. Fold .25"/.5cm to wrong side along 3 edges of Flap and press. Sew one side of hook and loop fastener on right side along right edge of Flap. Fold Flap closed and mark placement of fastener on right side of Pocket piece. Sew corresponding side of fastener to right side of Pocket piece where marked.

Pin Flap to wrong side of Barn Door and sew pieces together along 3 sides to line Barn Door.

Sew top and bottom edges of Pocket piece to top and bottom edges of Playmat. Working through all layers, sew along right side of Barn Door to stabilize.

Straps and Handle

Cut 2 pieces of ribbon, each 26"/66cm long for Straps. Cut one piece of ribbon, 14"/35.5cm long for Handle. Cut 2 pieces of hook and loop fastener, each 4"/10cm long. Sew loop side of each fastener piece to right side at one end of each Strap ribbon piece, 1"/2.5cm from end. Fold 1"/2.5cm to wrong side at opposite ends of Strap ribbon pieces and finger-press.

Open the barn door and store all the animals inside a handy pocket.

Sew hook sides of fastener to wrong side at opposite ends, covering folded ends. Mark 1"/2.5 from end of hook end of fastener on right side of ribbon pieces for Handle placement. Fold .5"/1.5cm to wrong side at each end of Handle ribbon piece and finger-press. With right side facing, lay out Strap pieces on work surface parallel to each other and 13"/33cm apart. Position and pin Handle piece perpendicular to Strap pieces on right side where marked. Straps and Handle make an H-shape. Sew pieces together.

With right side facing, position Backing piece on work surface with longer edges as top and bottom edges. With right side facing, position Straps centered on Backing piece, with hook ends of Straps extending beyond bottom edge and with long edge of Handle 2.5"/6.5cm in from bottom edge. Fold 1"/2.5cm of ribbon to wrong side of ribbon at loop end of fastener. Sew Straps in place along all edges. Do not sew Handle or ribbon with hook sides of fastener to Backing fabric.

Backing

Turn Backing piece over so wrong side is facing. With right side facing, position Playmat in center of Backing piece with Pond closer to bottom edge. Trim Pocket edges even with Playmat. Turn edges of Backing piece .5"/1.5cm to wrong side, then fold again to match edges of Playmat and press. Pin or baste pieces together. Sew Backing fabric to Playmat along all edges. Slip Animals in Pocket and close Barn Door, securing with hook and loop fastener. Roll up Playmat and secure with hook and loop fastener.
